

Sinclair's stations are abusing the license that the FCC gives them to use the airwaves for free. I would like to see all of Sinclair's stations shut down for broadcasting the upcoming anti-Kerry piece that tries to state American soldiers in Viet Nam never killed civilians, never killed babies, when that has been established as fact that they did. The stations will try to say that Kerry came back from Viet Nam and painted an untrue picture of how bloody and gruesome the Viet Nam war was. It was a horrible time and horrible deeds were committed, and the Sinclair broadcast will try to whitewash the viet nam war, and condemn Senator Kerry for telling the American Public the truth about how horrible the war was for all concerned. And it will be done by people who are lying in order to influence the presidential election. The piece is not news. It's propaganda.

I call for an immediate suspension of all Sinclair's station licenses.
